EXPERIENCE

No formal work experience; self-taught and actively building skills through projects and online platforms (LeetCode, HackerRank, Exercism, TryHackMe).

Certifications (In Progress)

- **AWS Certified Cloud Practitioner** (Expected August 2025)
 - Completing AWS Cloud Practitioner Essentials course, deploying apps on EC2/S3.

EDUCATION

Redemption higher institute of biomedical and management sciences

Software Engineering Student (BSc, Expected Dec 2025)

- Final-year student focusing on software development, data structures, and algorithms.
- Relevant coursework: Programming (Python, Rust, JavaScript), Cloud Computing, Network Security.

PROJECT

Pyrustpipe

Pyrustpipe is a library for processing semi structured data

Portfolio Website

- Developed a Streamlit-based portfolio to showcase coding projects and skills.
- Deployed on Streamlit Cloud, highlighting Python and web development basics.

SKILLS

Programming: Python (Data Structures & Algorithms: arrays, strings, stacks), Rust (structs, ownership), JavaScript (DOM, async basics), Go (servers, concurrency).

Cloud Computing: AWS Cloud Practitioner training (EC2, S3 deployment).

Ethical Hacking: Network security basics (Nmap, Wireshark, TryHackMe).

Tools: Git, VS Code, Streamlit, VirtualBox (Kali Linux).

Soft Skills: Self-motivated learner, problem-solving, teamwork, quick to learn new technologies

AWARDS

LANGUAGES

English (fluent)
