

Hello

I'm Jambong Ralpher Tebeck

Cameroon

Buea, Bokwai new layout

(237)658829883

jambongralpher@gmail.com

Skills

- Blockchain: Solana, Smart Contracts (Rust), Web3.js
- Languages: Python, Rust, JavaScript, Go
- Backend: FastAPI, Data Structures & Algorithms
- Cloud & DevOps: AWS (EC2, S3), Git, Linux
- Tools: VS Code, Cargo, npm

Projects

Discipline Tracker CLI | python

- A command-line application that logs daily discipline metrics (study time, meditation, habit streaks) and calculates a weekly performance score. Implemented file I/O for data persistence and functions for modular, clean code. Demonstrates core Python proficiency, project planning, and follow-through.

Interactive Skills Manager | Python

- A terminal-based application for dynamically managing a programming skills list with add, remove, pop, and save/load functionality. Features a persistent menu system with robust user input handling and error checking.

Portfolio Website | JavaScript, Streamlit

- Deployed a live portfolio website to showcase projects and technical skills.

Education

Redemption Higher Institute of Biomedical and Management Sciences

BSc, Software Engineering | Expected Dec 2025

Relevant Coursework: Programming (Python), Data Structures & Algorithms, Cloud Computing.

Certifications

FreeCodeCamp Responsive Web Design Certification([freecodecamp.org](https://www.freecodecamp.org))

Solana Developer Course (solana.com/developers)

LANGUAGES

English (Fluent)

spanish(beginner)
